SEALINK WELCOMES SUMMER EARLY

SeaLink is welcoming the warmer weather early with the introduction of their summer timetable on Saturday 4th September.

“Our maintenance and slipping schedule has been light this year” said general manager Donna Gauci. “We are always eager to get back to our full timetable for our regular travellers, so with all of our vessels “ship shape” after the winter maintenance plan we are launching into summer early this year.”

The company’s Friday night service to and from Auckland City has been operating all winter and the Saturday / Sunday service resumes on Saturday 4th September.

“It’s all looking very positive for summer on Waiheke Island” said Mrs Gauci. The season is expected to be busy with two big events - the SeaLink Jassy Dean Garden Safari on 13/14 November and **headland** Sculpture on the Gulf which will be on for an extended period from 28th January 2011.

SeaLink heavily promotes both Waiheke and Great Barrier Islands and their events throughout the year. The company’s next TV campaign commences mid-September with the emphasis on the new SeaLink Holidays brochure. “We are very excited about our 2010/11 programme and are constantly adding new dimensions in order to entice new customers to the islands.”
